Background:

The operating and capital expenses of state transportation agencies and programs are funded on a biennial basis by an omnibus transportation budget adopted by the Legislature in odd-numbered years. Additionally, supplemental budgets may be adopted during the biennium making various modifications to agency appropriations.

The transportation budget provides appropriations to the major transportation agencies including: the Department of Transportation, the Washington State Patrol, the Department of Licensing, the Washington Traffic Safety Commission, the Transportation Improvement Board, the County Road Administration Board, and the Freight Mobility Strategic Investment Board. The budget also provides appropriations out of transportation funds to many smaller agencies with transportation functions.

Summary of Engrossed Substitute Bill:

Appropriations are made for state transportation agencies and programs for the 2007-09 fiscal biennium. Total appropriations are \$7.5 billion, with \$2.6 billion in operating expenses and \$4.9 billion in capital investments. Additionally, appropriations for various transportation agencies and programs are modified for the 2005-07 biennium.

Appropriation: None.

Fiscal Note: Not requested.

Effective Date: The bill has an emergency clause and takes effect immediately.

Staff Summary of Public Testimony:

(In support) Liberty Lake requests funding for an access study on Interstate 90. Grant programs such as the Safe Routes to School Program, Pedestrian and Bicycle Safety Program, and the Regional Mobility Grant Program provide necessary resources to improve safety and mobility. Important freight mobility projects for the Port of Tacoma and the Port of Seattle are funded and will contribute to economic development. Several of the unions that work with the Washington State Ferry System support the bargaining agreements that were negotiated and funded in the budget. New investments for commute trip reduction are greatly needed,

however, additional flexibility to fund recommendations from the Commute Trip Reduction Board would be appreciated.

(Opposed) None.
